The George A. Smathers Libraries, forming the largest information resource system in the state of Florida, reflect the riches found in the university's academic programs. The library system is comprised of two main libraries and thirteen branch libraries and reading rooms, all with fully computerized facilities. Library collections are accessed through the LUIS online system, which holds more than one million bibliographic records. The Libraries have available 61 computerized retrieval systems. See <http://www.uflib.ufl.edu/>

Computer Facilities

Location of personal computers or terminals for general student use: Microcomputer labs, computer center, classrooms, libraries, student center, dormitories, modem dialup service, and a special office offering computer access for the disabled.

Computer requirements for students: Access to and on-going use of a computer will be required for all students to complete their degree programs successfully. Effective Summer B 1998, the university expects each student entering the junior year, as well as each student new to the university, to acquire computer hardware and software appropriate to his/her degree program. Competency in basic use of a computer is a requirement for graduation. See <http://www.circa.ufl.edu/computers/>

Campus Housing Policies (See <http://www.housing.ufl.edu/>)

Housing assignments are made on a space-available basis and freshmen who apply early and respond to the Division of Housing in a timely manner will receive priority for campus housing. Due to heavy demand, the university cannot guarantee on-campus housing to all students. A limited number of spaces are reserved for transfer students; interested students should contact housing as soon as they are admitted.
